(crime stories)

Chapter 1

(unknown gang)

Florida is usually known for crimes.
. I, Steve M. Mousie, am superintendant of police.
At 21:12 p.m , I had a call from sheriff " Sir! Sir!
Emergency! A bank has a treat of being looted. "
Me being ready to dial my team! Molly, Fidge
, Sovalter and me. " Guys be ready we have to save
Florida again."

"what? You should say now because
we have solved only three cases yet, but chief got

impressed with us so he made you superintendent." Fidge says in funny way "fine". Now let's go to the homeynoise bank. My phone rings, a person with voice changer says "Hey superintendant you got fooled again from me. That's a shame." And he hangs up. Molly stop the car. we got fooled again. Oh! Sorry did I introduced my team. Molly is intelligent technologist. Fidge is actually psychologist, I passed military test but decided to become a police officer. sovalter is hydrologist and meteorologist and biochemist.

"we are trolled again steve" fidge.
My Phone rings "hello, I am Jessie who runs a casino MELT & FREEZE. My casino is in loss since 25 days actually" "that's a lot of loss" I said. "I heard that your team has a human calculator and psychologist please can you come." Jessie said. "On my way Jessie"

Molly toward Melt & Freeze. Ops! I think I didn't tell you that molly is a human calculator "good morning guys, I have booked a business class room for 10 days if you solve the case." Said Jessie. "No, no, not at all needed" I said, I need it all shouted loudly. "guys we are here to solve the case not for fun" I said in a serious voice. Jessie said "this is our gambling are." Fidge shouts "really jess! Means man these old card servers and a bad machine has brought you down in the market."

Molly inserts beestinks (molly personal pendrive which can break through any 2018 to 2022 electronics.) and after firing old servants and buying machines made Jessie her come up from loss to profit. We had a lot research on Rookie gang Drug mafia. We had finally caught them but actually something big is gonna happen.

After catching rookie gang chief gave us holiday.

We went to Jessie's casino she said that there was a room actually empty we came into room and it was beautiful as heaven. Molly took a photo

near window . we went in gambling area I saw strange thing about five people .2 with a suitcase 2 with a big bag and 1 going towards the basement door. I knew that robbery is gonna take place I warned my team members "guys be calm robbery is gonna take place act like normal people" I had a plan to sneak on them but as soon as it tried to tackle them they were vanished. We were called in Jessie office they asked me why did you robbed us why ? "what I didn't robbed" "then explain this to me mister superintend." They had a recording of a tape which only had the words that I say "guys be calm robbery is gonna take place,....." "no I can explain" I shouted. I was warning my team members. Ohh! lets go check your Mercedes Sprinter. They 2 bags of cash was found in my car. Jessie shouted "that's incomplete money that I

own" I was sent to jail. Molly said I know steve hadn't did this then who did this ?

The story begins

I told Carlson "listen I can't rob a bank you know that." "Sorry I can't help laws are laws" said Carson. I was sent into a cell which was near fire-exit. Molly had a idea to prove that I am not the robber she had a chopper booked for \$20,000 and had parachute for two. Fidge was freaked out to jump "molly I am not freaking jumping " molly replied "if you jump I will give you 10,000..." fidge said "thanks for \$10000." and he jumped. Molly said " what no I said 10000 cent" everybody jumped on the roof of casino. Sovalter was in a car in which he was running the downloads of the casino as soon as molly would insert 1xweblock pendrive which would directly connect sovalter pc. Molly and fidge came into Jessie office **but** fidge sucked up the made a big noise. And then he had

to run 3 floors up down to get loose of the guards
molly inserted the pendrive. Sovalter had to
complete the download.

Me, I got freaked upped. The thing
that I did today was disgusting. The holder in
which Naphthalene is there in toilet I remove it and
broke the holder in two parts and used it as lock
pick. Kaboom! I did it I went through the fire exit
And escaped.

Fidge got caught up by guard
He was brought to Jessie's limo. Fidge saw a smile
on Jessie's face. "You should be sad your casino is
robbed", "I get it you own robbed the bank to give
the superintendent post to Carlson." Said fidge. I
guess you're smart fidge. "now you know truth
then message your team to come near **the Northern
Hemisphere "desert belt."** Located between the tropics and
the mid-latitudes, the sub-tropical desert belt occurs

where, on average, air is sinking from high altitudes back toward the surface. lets see can they find you."

I saw sovalter in a car. Guys I found something there is a rope in window of steve's room, in an junk file I saw Jessie and more 3 boys talking and they stole our vans keys and again after few min they came again to keep the keys back . I have a tape of it now some in car.

Molly was surprised "steve you're here."

She ran the tape we all heard "Carlson congratulation you are the superintendant now, my boys have put money in steve's car.". really no way dude igot scammed by jess. We all got message guys come near

come near **the Northern Hemisphere "desert belt."**

Located between the tropics and the mid-latitudes, the sub-tropical desert belt occurs where, on average, air is sinking from high altitudes back toward the surface. Jessie guards dropped me hear. When we got there there was Jessie and Carlson holding gun to kills us all but nah! I said "stupid guys u think we are dull" jess said "something is wrong he is supposed to be in jail" and in copper david and his team comes. **DAVID J. TIBES** he is

a sheriff but he has team of eight and I messaged him also be prepared to catch a gang policekiller gang. This gang is also like sniper cells . they kill or trap police and incharge they have a man who works for them as a crime handler.
